CITY OF CHICAGO:

THURSDAY MORNING, SEPT'R 29, 1853.

☞ See First Page!

THE NOT HERALD RAT!—We French, etc; the glory of the [illegible] hath departed, Ichabod! Ichabod! The conflagration meeting of the Softs, on Friday evening last at Tammany Hall, was a complete failure, as has been already announced by Telegraph. The gathering was small, the enthusiasm bought, and the exhibition was a failure. Some of the big guns were present, but some of the absentees made up for their bodily absence by sending epistles to the convention, of such a terrible character as to induce the president to decline reading them. Among this number (there were about a quarter of a hundred in all) were two from Collector Bronson of the port of New York, and Judge O'Conner, U. S District Attorney, both of which gentlemen hold office under appointment of Mr. Pierce. Nothing can be more convincing than the contents of these letters—nothing more clearly indicative of the state of party feeling among the "Harmonious" of the Empire State. The New York Evening *Post* bewails the apostacy of these gentlemen; threatens them with terrors of administrative vengeance, and recommends Mr. Pierce to consult no article written by Col. Benton on "Removals from office," in order to learn how to vanish them. Poor Pro ident Pierce! how unpleasant it must be thus to have the "poisoned chalice recommended to his lips" to be recommended to seek instruction in the discharge of his official duties, from newspaper articles written by "Old Bullion!" But to the letters. Mr. O'Conner says:

"Of the corrections was unanimously the presence of a single member ever known as an agitator of principles and practices tending in any degree, however slight, to disturb that union and harmony, the candidates for which are equally free from reproach. Turning to the contemplation of the other contingencies, I find that all the leaders were frequently engaged in a course of political agitation directly tending to discord between the northern and southern states. It has indeed presented a picture of principles unqualifiedly demanding that political agitation as dangerous to the permanency of the Union and inadmissible among democrats; but when it is considered that the whole assemblage was unimpressive exception, expressly withheld assent to that platform, or repudiated it, the resolution adopting it is not to my opinion entitled to any confidence whatever. One of the candidates nominated by this body, who was himself a member of it, refused his assent to those very principles in the most emphatic manner as lately as the month of June, 1853. As far as is known to me, he still repudiates them. It is presumable that he has been on the eminence of the convention which nominated him, and I know no reason for supposing that any of his associates on the ticket are in this respect unlike him.

Mr Conner between tickets thus presented is easily made. I adopt that which was made by a convention of sound, national men, and as unobjectionable democrats, whose pattern is unexceptionable in its terms, is admitted on all hands to have been adopted with sincerity, and whose success with the political lads and associates its framers. I shall support, to the best of my ability, the ticket first named and at Syracuse, and heeded George W. Clinton, for Secretary of State.

Collector Bronson's letter is so rich that we give it entire.

New York, Sept. 22, 1853

Gentlemen: I have received your invitation to address a meeting of the democr y of the city at Tammany Hall, on Friday evening, and to participate with you in "ratifying the ticket which was last nominated at the Great Syracuse Convention." Although it may be known to you that I am not in the habit of addressing political assemblies, candor requires me to add, that I do not intend, in any form, to support the ticket. As a lover of honesty in politics, as well as in other things, capable of deciding correctly, I cannot approve of nominations brought about by fraud and violence. Those who introduce deceitful and bother into our conventions, for the purpose of controlling events, must not expect that their proceedings will be sanctioned by me, whatever course may be pursued by others.

Although this is ground enough for declining your invitation, I will add, that of all the nominees were otherwise unexceptionable, they come to me the public under the leadership of men who have been so long for the last two or three years a defeat the early completion of the public works; and after the shameless breach, which we have witnessed, of past pledges in relation to the canals, there can be no reasonable ground for hope that new promises will be performed.

The whole tenor of my life renders it unnecessary for me to make any profession of attachment to democratic principles, or to the good old time-honored republican party, which has stood by the country, the constitution and the laws through all times and changes. And the fact that I accept it and still continue to hold office under the present administration is equally unnecessary for me to assert and honorable enough to say that the administration of the government, in conformity with the principles announced in the Baltimore platform and his inaugural address, will at all times receive my cordial support.

You say of the "state administration," that it "must be sustained." I am at a loss to know what to do by upholding the state officers; for they have no connection with political affairs for the present, that not one of them, (with the exception of Mr. Meiher,) was so much as mentioned for nomination in either branch of the convention. The only way in which we can sustain them is by perpetuating their policy in relation to the canals; and, in my judgment, nothing could be more injurious to the best interests of the city and state of New York.

I have deemed it proper, in these times of double dealing, to speak plainly but without any intention of giving offense.

I am, very respectfully, yours,
(Copy.) GRETT BRONSON.
Messrs. William Kennedy and others, Committee.

The Post sometimes lets the truth slip out when probably it is intended to keep it very close; as for instance, in advising the President, as per post first remarked, to decapitate forth with there, two traitors, it remarks that "such emergencies are likely, hereafter, not unfrequently to arise."

We think so—as long as there is any self respect and sense of honor left in the Democratic party of New York, they cannot fail to be disgusted with the President's want of good faith, and to refuse to sanction and sustain his administration, and then of course such *emergencies* will be very likely to arise as the present one—for wags the world's tail.

TELEGRAPHING.—The Louisville *Journal* of the 22nd, says that it knows important and serious Filibustering projects are on the point of being developed. Hear is:

"We don't like Pierce and his Cabinet very much, but are still in good nature enough to suggest to them, that, if they have not definitely made up their minds as to what course they will pursue in the event of a serious outbreak of filibusterism, they had better do so at once as they can not reasonably or honorably do otherwise. We have no wish to more them, but we tell them in all good faith, that, without being filibusters ourselves or having any sympathy with filibusterism, we happen by the merest chance in the world to know that filibusterism is just now getting dangerous. Very likely the administration will not pay the slightest regard to this our disinterested suggestion. Well, so much the worse for the administration.

We were assured by a very prominent and influential filibuster of New York last February that the filibusters, having a very kindly feeling for G. n. Pierce, would not attempt to get up another Cuban expedition without his knowledge and express or tacit consent. May be they have obtained that consent, and may be they are tired of waiting for it. He that it may, they are preparing for action. The powers that be may not believe it, but the powers that be had better believe it."

If the "Cuban patriots" do make another attempt to conquer Cuba, it will place the "powers that be" in a very awkward position. On the one hand it will have the Union and its principles promoted, and Mr. Pierce and his cabinet praised, but on the other hand it will place them in the position of the very worst traitors that ever disgraced the country, the constitution and the laws through all times and changes. And the fact that I agree and still continue to hold office under the present administration is equally unnecessary for me to assert and honorable enough to say that the administration of the government, in conformity with the principles announced in the Baltimore platform and his inaugural address, will at all times receive my cordial support.

TRADE AND COMMERCE

WEEKLY REVIEW of the CHICAGO MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Friday Evening, Sept. 23, 1853.

Receipts of Produce, of all descriptions, by canal and Galena and Chicago Union Railroad, from the 5th to the 17th, both inclusive, have been as follows:

	Railroad.	Canal.	Total.
Flour, bbls	1,107	12,450	13,557
Wheat, bushels	47,797	19,000	66,797
Corn, "	2,000	2,000	4,000
Oats, "	2,000	2,000	4,000
Barley, "	2,000	2,000	4,000
Rye, "	2,000	2,000	4,000
Hogs, No.	51		51

By changing the Flour to Grain, according to the usual standard, the total receipts of Grain from the two sources mentioned amounted to 93,333 bushels. Besides this, there have been received from teams, during the same time, over 30,000 bushels, making in all over 100,000 bushels, or an average of 6,000 daily. Nearly each of this eight hundred bushels.

The market during the past seven days has changed very much, as regards Wheat. At the writing of our last Review spring Wheat was selling at 75@80c, and winter 75@ 80c. Every day since, the price has advanced, until it has reached within five to seven cents of the high rates paid there several ago.——CORN has fallen off considerably, and the market has been dull and heavy.——OATS are unchanged.——RYE, up to yesterday, rounded two cents, but to-day it is dull at the quotations of yesterday.——BARLEY is dull at 50@55c.——HAY is in good demand, and sells at 12@15 per ton.

TALLOW.—We heard of no sales, but packers are not contract, except at higher figures.

BUTTER.—There is more coming forward by Railroad, but it is principally fresh, collected by speculators for shipment. The supply of good fresh and roll is not equal to the demands of local consumption, and sales are quick at 15@ 16c wholesale.

EGGS.—There is another improvement. Fresh-laid would bring the 0 doz.—for old, there is no sale.

MACKEREL.—The supply on the market is small. No. 2's selling at 9@9 bbl.

WHITE FISH.—Supply not so large.—Half bbls. weighed and inspection guaranteed, selling at 4½@4½.75.

COAL.—The sales to the trade are liberal at 4.00@4.50 ₱ 100 lbs.——the latter price for Grand Rapids.

HEMMING.—No change. Steady at 50c ₱ box for No. 1, and 42c for small. Supply abundant.

POTATOES.—The amount that has offered from sales at, inks and wagons during the week, has been much beyond the wants of the local trade, and as there is no demand for steers, prices have fallen to the lowest figure for several years. Prime qualities have been selling at 30@35c per bu. We heard of sales to deliver large lots here next month at the latter figure.

CHEESE.—We hear of one sale of common country.——Thirty boxes have sold at 8c. W. B. is wanted at 9c.——In a small way, from store, at 9c, 9½@10c ₱ lb. Hamlin & Hanchett are said to be selling at 10c ₱ lb. The market is ungenerally dull and declining.

BEANS.—There is some demand for the lumber country and we hear of sales of 20 bu. prime, at 75c. The crop is reported to be abundant and of good quality, in quality to that of last year.

GROCERIES.

Sugars are very scarce, and some of the heaviest descriptions are without supplies of prime qualities unrefined. This is occasioned by the generalness of the prices for raw sugars, the extent to which has prevented, boats from piping between that city and St. Louis. Under this condition of things, the stocks in the hands of dealers have been cut to a very low figure, and the market is left very firm, with an advancing tendency. It is probable that dealers will have to obtain a considerable part of their fall supply at New York, as there is now a bobbin of any change with reference to the Southern market until the epidemic subsides. The advance in refined sugars noticed in our last review, is freely maintained. We quote present rates of staple articles of Groceries, as follows:

SUGAR.—Prime N. O. Sugar, 6@6½c ₱ lb; fair to good do do 5½@5½c; Havanna Brown do, 5½; do white do, 7@7½c; Loaf, 9½@10c; Crushed, 9½@10c; Powdered and Granulated, 9½@10c.

MOLASSES.—N. O. Molasses per gallon, 29@31c; W. I. do, 30@32c; B. H. N. O., 28@31c; N. O. Syrup, 36@40c; St. Louis do, 40@45c; Sweet's do, 60@65c.

COFFEE.—Rio, 11@12½c; O. G. Java, 14@15½c; Mahaica, 13@14c; Laguayra, 12½@13c.

Nuts and Spices are unchanged.——Starch half cent better.——Tallow declining half cent. ₱ lb lower, but the quotations are the same.——The stock on hand is unusually light.——Rice, 4½@5c.——Saleratus, 6½@7c.

OIL.—We continue to receive all kinds of kinds of kinds, and also on lake and train. The stock on hand is not as large as was expected, and the amount of railroad iron now awaiting, with every succeeding large receipt of new harvest this and the close of navigation.——Sales from yards, in a retail way, are now made at the following rates: Rice, 46 oil; Rose Rib do, 44 oil; do Coopers, 43 oil; Stewarts, 43; Pittsburg, 39; Rosebud, 40; Lockwoods, 39; Lockwoods, long, 0.00; do. sup., 0.00; Frank Orchard, 42; Gilt, 40@42; Lehigh, long, 41.——The proof is favorable for still higher rates, within the ensuing month.

LIVE STOCK.

CATTLE.—Packers have commenced slaughtering in some extent, but the season will not fully open till next Monday. The mark t has been very steady during the week. Butchers' fat-ly market pay for small but choice lots, 02 lb, and, in two cases, 02 @ 03c lb live weight. The selling price for good to choice is steady at 2 @ 2½ lb net. Quotations to the extent of several thousand made, during past week, for delivery in October, to that figure.

HOGS.—No sales. Fat can nominally 04.50 ; and stock do 02.75 @ 03 lbs. live weight.

SHEEP.—There are not enough offering to supply the demand of city butchers, owing to the infrequent use of farm as well. Stock flocks are in demand at 01.00@1.75 ₱ head, and we hear of one lot taken for Wisconsin at 02,50.——good Muttons selling at 01.75@2.00 ₱ 100 lb.

LUMBER, SHINGLES AND LATHS.—We notice some activity in the pine lumber trade. Receipts are heavier both by Canal and Railroads. There is no change in rates from last week's quotations. Common Boards and Scantling better, and in some demand. Laths are also scarce, and are now from 1.75@2.00 ₱ thousand. Shingles are very firm, unchanged.——Vessels cleared for lumber on same day, 0; disinterments, now charge 25@37½ ₱ 1000 feet advance on prices paid two weeks ago, and the prospect is fair for a further advance within a fortnight.

SALT.—The receipts and sales during the week have been large. We have to notice increased demand and an advance in quotations on the part of Dwight's. Sales of 1200 bbls at 01.75, indicate at least 5c better prices than prevailed one week ago. Dealers are selling at 01.75, 01.75 01.81, and 01.87, according to quantity. Ground Alum held in from at 01 ₱ bbl.——Dairy, 14 ₱ sacks, 12c; 20 ₱ sacks, 14@ 15c.

HIDES AND PELTS.—Green selling freely at 4@6c ₱ lb; dry salt, 9@10c; dry flint, 10@11c; green veal, 7c; dry do, 10c. Market good at these rates, with more than one half of September slaughter, at 6@.

FRUITS.—Green fruits are becoming abundant. Apples selling at 0@0.50 ₱ bu. Peaches, 0.00@1.25. Plums are also plenty at 0 ₱ bu, varying from 01.50@2.00 per bu, according to quality. Cranberries, 01 per bu. Seed apples offered at 01.00@1.25. Lemons, 05 00@15.00 ₱ box. Oranges, 0 ₱ box. Raisins are selling at 01.50@2.25; Raisin Grapes, 1bg@1c; Figs, 12@16c; Prunes, 12@15c.

HIGH WINES.—Distillers have taken of one cent per gallon, and now sell at 28c.

WHISKEY.—No change. Sales at 19@20c for city and country brands, and 18c for Cornbia's Ohio.

FREIGHTS.—The propeller Mayflower takes 13,000 bu Corn to Buffalo, at 3c, and fills up with Barley along shore; the propeller Buckeye takes 7,000 bu Barley here at 7c, and completes cargo along shore; the propeller Hunter takes cargo of Barley at 7c; the propeller Buffalo takes 10 tons hold Broom Corn, at 04 ₱ ton, besides Oats, probably enough to complete cargo; the propeller Minnesota takes Coal and Barley along shore at 8½c.

NEW YORK MARKET.—Sept. 26.—7 P.M.

FLOUR.—Little change to note in Western and State; supply and demand rather limited. Sales of 5,000 bbls of the steamer reported a business for export—there is a fair demand for home consumption. Sales of 10,000 bbls at 04.87½@5 for State; 04.87½@5 for Ohio; 04.87½@5 for Genesee; 04.87½@5 for Michigan and Indiana; and 04.87½@5 for Ohio, including 5,000 bbls Ohio, sold on private terms. Canadian flour is dull and heavy.

RYE.—There is a fair demand for prime, but there is little for sale. Sales of 2,000 bbls at 03.37½@3.50 for Jersey; 03.37½@3.50 for Western. Canada flour is dull and heavy; sales are very limited.

CORN MEAL.—Sales of 500 bbls at 02.75@2.81½ for Brandywine; 02.75@2.81½ for Jersey.

WHEAT.—There is a fair demand for prime, but there is little for sale. Sales of 10,000 bbls at 01.50@1.51 for White and mixed; 01 for round Yellow; 01.48 for Southern.

WHISKEY.—Quiet and prices unchanged—sales 00 bbls. at 20c for Ohio; 20c for Michigan; 20c for Ohio; 20c for Indiana; 20c for Western; 20c for Genesee; 20c for Canada.

RYE.—Sales of 1,000 bbls at 0 ₱ cent. Only 100 bbls here, and 200 to arrive at Philadelphia.

CORN.—Sales of 00,000 bus and may be quoted at 70c; but at this price there is no demand, and we are not surprised if buyers come in at one and two cents less.

PORK.—Sales of 000 bbls new; Prime little or no sale, and price quite nominal. Rosen retail sale.

BEEF.—Sales of 000 bbls at former prices. Prime is to be carry put to any anything of the crop generally.

LONDON MONEY MARKET.

FRIDAY, Sept. 9, one o'clock.

There is no important alteration observable in the demand for money, nor in the rates. The former continues active, and the latter are firm at previous quotations, being but one below the minimum of the Bank of England. The Directors of the Money Order Office, in their more stringent capacity to be more general than it was the act to which it is intended to apply, by the powers to be published this evening in the London Gazette, show a further decrease in the amount of the gross sum still remaining to be paid for the claims made for no less than ten concerns two weeks ago, the amount was 21,000 for one week ago, 17,000 and the present week 15,000. The rate of decrease is nearly 2,000 per week, and if it continues at this rate for the next seven weeks, the entire outstanding claims will be discharged. The Stock Exchange will be attended to, if satisfactory, of course.

The Bank of England has issued its March paper's name, and where it is necessary to a proper understanding of their monthly statements, a short description should be appended.

Speaking of the Fair, a report of the different Committees and the Board of Directors will be printed in pamphlet form and distributed to exhibitors, which will include the names of all articles exhibited. A few advertisements will be inserted in the pamphlet, and the profits arising from them will be devoted to the payment of the Secretary, Mr. Marshall, Corresponding Secretary, Wm. Ranger, Esq., Chairman of the Committee of Finance, and Mr. Scott, Secretary to the Committee of Finance. It is necessary to have these gentlemen remunerated, as their services are required in order to be in competition must have been made since October last, and the Committee of Finance will be unable to pay the expenses of the Fair, which were at one time estimated at 0,000, without the consent of the manager.

The Committee of Finance, Committee for the year 1853, to examine new inventions and Machines, and report thereon, to the Board, are as follows: Wm. Ranger, Esq., Chairman; H. L. Fulton, H. P. Monroe, J. W. Chesbrough, Wm. Stuart, Esq., and Prof. Whittlesey.

BOARD OF DIRECTORS.

HATHAWAY'S

Mathematical and Classical High School, FOR MALES AND FEMALES,

No. 56.....LAKE STREET.....No. 56.

CHICAGO, ILL., OPPOSITE THE CITY HOTEL.

WILL re-open for the reception of Pupils on Wednesday, Sept. 7, 1853.

The system of instruction is strictly original, derived from long practical experience in the field of education, and is designed to develop the mental powers, and give correct habits of thought. Each pupil is taught to make their minds familiar with the principles of the sciences, and to express their ideas and clothe—in short, to acquire RATIONAL AND SOLID knowledge, and to be able to communicate it.

Only a limited number of pupils can be received, and as the Principal has had many years experience, and will have devoted attention, it is advisable for all who wish to secure the advantages of this School, to make early application.

☞ He desires to continue who receive other information in regard to the School, to call at his residence, corner of Lake street and Wabash avenue, the rewards of honor, and the terms of admission.

Our system of instruction is identified in the following words: Thorough, Practical, Progressive, Moral.

The universal satisfaction that has existed by all who have been connected with the School, for the past two years, we can refer for the truth.

Testimonials can be had, and will be said to such Ladies and Gentlemen, as may wish to qualify themselves for instructors.

Pupils will be received at any time, and charged from the date of entrance to the close of the term. Those who enter at the commencement will secure for themselves a full course of instruction, and will be charged from the date of entrance to the close of the term. Those who enter without walking home or boiling rooms in the Seminary building, to be examined by a Committee of Painting and Drawing.—The Principals are determined to maintain the literary character they have won for the Institution.

HOUSEHOLD AND KITCHEN FURNITURE.

SCROFULA.—Wright's Indian Vegetable will bring a thorough and radical cure for every kind of Scrofula, because they cleanse and purify the body of all bad humors and everything that is impure in health, and must touch an energy to the circulation, that health and vigor are given to the whole frame. From two to four of said Indian Vegetable Pills, taken on going to bed, will make a perfect cure of the most obstinate cases of Scrofula; at the same time the constitution will undergo such a radical change that Scrofula, as well as every other complaint, will be banished from the body, and new life and vigor will be given to the whole frame.

NEWS FROM CALIFORNIA TWO WEEKS. LATER.

The Northern Light, arrived at New York on Sunday morning about 1 o'clock, with 655 passengers, and $1, 345, 838 in gold. She brings San Francisco dates up to the 1st September. The news is not very important. We annex a summary of the most interesting portions.

The two men who murdered Mr. Beckman at Volcano, California, on July last, were discovered in a very extraordinary manner. They board the steamer Brother Jonathan on their downward trip on the 8th inst. Having murdered their victim, and stolen several thousand dollars out of his store, the set off for the Atlantic States, via the Great American Desert. Sickness drove them back to Marysville, where they disposed of their mules. They then came down to San Francisco changed their names and took passage in the steamer Brother Jonathan. They were discovered by Mr. John Mace, Missouri, who had known them a long time before, when laboring in the mines at Volcano. Mr. Mace f ported the case to one of the officers on board the boat, and subsequently to a few of the passengers. When the case became ripe for examination, a committee of seven, consisting of six, was appointed. They took down the deposition of John Mace. The committee, then, repaired to the cabin where the two men were sitting. Harry and John Fox, were arrested and examined. They were identified against each other, after much prevarication. They were put in irons, and under guard of Mace and Benjamin Goodall, brought to San Francisco, to which place they would be conveyed. The discovery and arrest of these two men caused much excitement among the passengers.

Trade has been very dull, and langnor and inactivity pervades every department of commerce. There is nothing discouraging in this, as it is now the dull season, and all other departments are bustling and flourishing. Gold is still very abundant and the miners are having excellent success.

Every county in the State is a scene of political discussion and excitement. The election will take place on the 7th prox., and until that event shall have transpired, the gold-mined will be to a great extent occupied by political matters.

The Indians in the Rogue River valley are in a fearful state of excitement. It is feared that a bloody and protracted war will soon ensue.

A rendezvous of villians, of all grades and characters, was recently discovered in the thick of the Humbolt river, east of the Sierra Nevada.

A murderer was traced by a party from Calveras county, to the rendezvous, where about one hundred and fifty of the outlaws were discovered. A certain Jesse Brown will probably go out to dislodge the villians.

From various circumstances, it is more than probable that the "Joaquin Rangers" who supposed capture of the renowned bandit, Joaquin Murietta, created so much talk lately, were mistaken in their man, and consequently an unlucky person who went out from Los Angeles to catch wid horses.

FROM OREGON.—We have Oregon Dates up to 26th of August. The principal news of interest is in relation to the Indian Depredations on the frontier.

Several tribes had united and commenced a war of extermination, and many massacre s had taken place. Among those killed were Dr. W. R. Rose and J. R. Herdin.

Lieut. B. F. Griffin, with a company of troops made an attack upon a party of Indians, but was obliged to retreat, he him self wounded.

An expedition under Gen. Lane had gone to the scene of action, and it was expected frightful butchery would cease At the last accounts, twenty whites had been butchered.
